INCOMING POWER KIT

— One kit is required per continuous run of LBI

INCLUDED WITH KIT

— Incoming Power Cable / Pigtail

Used to hard wire the incoming power cable into fixture or junction box.

— Service Disconnect & Abrasion Protection Grommet

CONNECTORS & CONTROLS

LINKING CABLES
AVAILABLE IN 6", 12" OR 18"

Quickly link LBI together in fixtures, around corners and more.

DIM

NO-DIM

SEAMLESS CONNECTORS

Connect LBI together resulting in a seamless run of lighting.

OC2 SENSOR KIT

Tri-Level, remote programmable high frequency motion and daylight sensor designed to easily integrate with the LBI bars.

EMERGENCY DRIVER (EMG-H SERIES)

Emergency solution for LBI. It allows the LBI to be used for normal and emergency operation.

4.7IN SPACER CONNECTOR

Use the 4.7in spacer connector to bring the length of the bar system to a standard dimension.

CORD WITH PLUG & ON/OFF SWITCH
AVAILABLE IN 2' OR 7'

Used when powering the LBI bars from a standard "3 prong" electrical outlet (NEMA 5-15 receptacle).

NOTE electrical rating allows up to 10 LBI units connected with linking cables and/or seamless connectors when using the cord w/ plug.

MOUNTING ACCESSORIES

SURFACE MOUNT MAGNETIC CLIP

The most universal method for attaching the LBI to a wall, ceiling, or fixture.

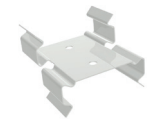

(2x magnetic clips, 4x screws, 1x FWFC cover included with every LBI)

SUSPENDED IN-LINE BRACKET KIT

Fastens over the junction of 2 LBI to keep them straight in-line and provides mounting points for common suspension methods.

UP DOWN CLIP

Use the Up/Down clip with our suspended in-line kit to clip a shorter LBI to provide up-light.

BLADE CLIP

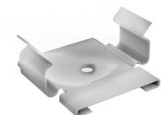

Designed for fixtures that have thin sheet metal or plastic film reflectors commonly found on high bays.

45 DEGREE BRACKET/CLIP

Holds the LBI at 45 degrees to better distribute the light in the desired direction.

T-BAR CLIP

The fastest way to mount a light bar to a T-Bar grid ceiling. Works with standard 15/16" grid only.
